

IMPORTANT NOTES REGARDING FUN BILLBOARD INSTALLATION.

Read it even if you have already installed FUN BILLBOARD DEMO. It will save your time

**Read it even more carefully if you are Windows Vista or Windows 7 user.**

## To install Fun Billboard follow the steps below:

1. Make sure that you are logged on as an administrator of Windows XP, Widows Vista or Windows 7.
2. Make sure that .NET Framework 2.0 is installed on your computer. FUN BILLBOARD will not function without .NET 2.0 framework installed.

Note: You can check if .NET Framework 2.0 is installed by copying the following line:

```
%systemroot%\Microsoft.NET\Framework\
```

and pasting it into your Windows Explorer address bar. Look for a folder, which name begins with „v2.0...”

.NET Framework 2.0 can be downloaded for free from Microsoft Corp. web site <http://www.microsoft.com/downloads/>

3. Make sure that you have the latest version of Internet Explorer (7 or later) installed on your computer. The newest version of Internet Explorer can be downloaded from: <http://www.microsoft.com/downloads/>
4. Run the "FBSETUP\_DEMO.exe" file that you have downloaded from <http://www.xplorex.pl>

### **Important notice for Windows Vista and Windows 7 users regarding the installation of the FUN BILLBOARD DEMO**

Windows Vista or Windows 7 user please follow the steps:

- a. Run "FBSETUP\_DEMO.exe" installation program.
- b. If Windows asks you for a permission to install the program, choose "Allow".
- c. Don't try to start the program yet! It probably won't start!
- d. After the installation, open the directory: "C:\Program Files\FunBillboard\MainApp\" and find the file "FunBillboard.exe"
- e. Right-click on the file with your mouse and select "Properties".
- f. In the "Compatibility" tab check the box "Run this program in compatibility mode for:" and choose "Windows XP (Service Pack 2)" or "Windows XP (Service Pack 3)".
- g. In the "Compatibility" tab check the box "Run this program as an administrator".

- h. Open the directory: "C:\Program Files\FunBillboard\AdminConsole\  
and find the file "Admin.exe"
  - i. Repeat the steps 5 – 7 for the file Admin.exe
  - h. Now start the program normally using START menu in your Windows system.
- 
5. In Windows click on „Start", choose "All programs" / "Fun Billboard" / "Fun Billboard".
  6. A pop-up "Modem connection error" will appear on the screen. Choose "Start without modem".
  7. Fun Billboard will start.
  8. In Windows click on „Start", choose "All programs" / "Fun Billboard" / "Fun Billboard Admin". The "Admin console" will start.
  9. In the "Admin console" open the menu "Help" and click on "User manual".
  10. Read through the sections 5.1 and 5.3.2.1 of User Manual on how to setup your modem or mobile phone to work with Fun Billboard.
